

Faculty requirements

Glossary

- Teaching skills course – a teaching skills/pedagogical course including, but not limited to, Training the Trainers (from any institution), GIC, ATLS Instructor, PGCert in Medical Education. Courses for educational supervisors (eg TrACE, TAIP, ESS) are not considered equivalent.
- Course Director (CD) – faculty member taking overall responsibility for running the course. All courses must have one CD. Only one CD may be assigned to a course.
- Co-director (Co-D) – supports the Course Director. Usually either a ‘director in training’ or an experienced director who is supporting a new director. Co-Ds are optional on any course.
- Instructor Candidate (IC) – supernumerary, teaching for the first time on that course, must be supervised and signed off by the CD or Co-D.

Notes

1. All prospective faculty should apply to RCS on a Faculty Application Form.
2. Where the faculty requirements stipulate ‘or SAS/LED with commensurate experience’, an equivalent SAS or locally employed doctor level may be calculated based on the number of years postgraduate **clinical** experience, eg ST3+ = at least 4 years’ postgraduate clinical experience; ST7+ = at least 8 years’ postgraduate clinical experience.
3. Where the faculty/course director requirements stipulate ‘senior SAS/locally employed doctor’, the applicant must meet ONE of the following criteria:
 - a. Post-CESR
 - b. Post-CCT
 - c. Hold a Specialist grade post (national Specialist 2021 contract)
 - d. Hold a Specialty Doctor post and have passed the upper threshold of the national Specialty Doctor 2021 contract (pay point 4 of the new structure)
 - e. Hold an SAS post and have passed Threshold 2 of the SAS 2008 contract
4. Where CD and Co-D requirements list number of times as faculty, this means acting as full faculty on the course in question. Unless explicitly stated, it does not include teaching as IC. To propose a faculty member as a Co-D or CD, please email edufaculty@rcseng.ac.uk with their name and GMC or RCS number.
5. This is a master list of all eligibility requirements and not all the courses listed below are currently recruiting faculty. If your preferred course is not available, we may invite you to teach on a course where we have more need.

Faculty requirements

Course	Branch/specialty	Requirements
Advanced Trauma Life Support® (ATLS) Instructor	Surgeon – any specialty Emergency medicine physician Anaesthetist GP	Current ATLS Instructor status Have taught on at least six ATLS Provider courses, including course as an IC
Advanced Trauma Life Support® (ATLS) Provider	Surgeon – any specialty Emergency medicine physician Anaesthetist GP	ST4 + or SAS/LED with commensurate experience IP nomination Attend ATLS Instructor course Teach as IC
Advanced Trauma Life Support® (ATLS) Reverification	Surgeon – any specialty Emergency medicine physician Anaesthetist GP	Current ATLS Instructor status Have taught on ATLS Provider – a minimum of five Provider courses is recommended
Advanced Trauma Nursing Course (ATNC) Instructor	Eligible registered nurses, AHPs, primarily from a paramedic and ODP background, working in trauma teams	Current ATNC Instructor status Have taught on at least five ATNC Provider courses as a full instructor or Have taught on at least two ATNC Provider courses as a full instructor and has GIC instructor status. or Have taught on ATNC Instructor course in the last five years.

Course	Branch/specialty	Requirements
Advanced Trauma Nursing Course (ATNC) Provider	Eligible registered nurses, AHPs, primarily from a paramedic and ODP background, working in trauma teams	IP nomination Attend ATNC Instructor course Teach as IC
Advanced Trauma Nursing Course (ATNC) Reverification	Eligible registered nurses, AHPs, primarily from a paramedic and ODP background, working in trauma teams	Current ATNC Instructor status
Basic Surgical Skills (BSS)	Surgeon – any specialty	ST3 + or SAS/LED with commensurate experience Teach as IC Be active CSES faculty
Care of the Critically Ill Surgical Patient® (CCrISP)	Surgeon – any specialty Anaesthetist Intensive care specialist	ST5 + or SAS/LED with commensurate experience Have attended a teaching skills/pedagogy course Complete the IC Preparation online module Teach as IC ST5 + or SAS/LED with commensurate experience CCrISP Instructor course
Clinical Skills in Emergency Surgery (CSES)	Surgeon – general, vascular	ST6 + or SAS/LED with commensurate experience Teach as IC
Core Skills in Laparoscopic Surgery (Core Lap)	Surgeon – any specialty that conducts minimally invasive surgery	ST5 + or SAS/LED with commensurate experience Teach as IC Be active Intermediate Laparoscopy faculty

Course	Branch/specialty	Requirements
CCrISP Instructor	Surgeon – any specialty Anaesthetist Intensive care specialist	Consultant or senior SAS/locally employed doctor Have taught on at least 5 five CCrISP Provider courses Teach as IC
Damage Control Orthopaedic Trauma Surgery (DCOTS)	Surgeon – orthopaedics, plastics, vascular Anaesthetist	ST7 + or SAS/LED with commensurate experience Credible experience working in trauma and sound knowledge of damage control principles Recommendation from DCOTS course directors (eg by attending DCOTS as a participant or through known body of work) Teach as IC
Definitive Surgical Trauma Skills (DSTS)	Surgeon – general, vascular	ST7 + or SAS/LED with commensurate experience Extensive trauma experience (eg senior clinician for 5 years in a trauma-receiving hospital) Three out of: <ul style="list-style-type: none"> ▫ Work in a major trauma centre ▫ Hold a formal trauma fellowship ▫ Active military or humanitarian work ▫ Verifiable trauma faculty on senior trauma course ▫ Have attended DSTS or equivalent as a participant Teach as IC
Excellence in Surgical Supervision (ESS)	Surgeon – any specialty Medical clinician – specialty allied to surgery	Consultant or senior SAS/LED with commensurate experience who is an Educational supervisor (ES) with a minimum of 3 years of educational supervision experience in the NHS Accredited trainer with the GMC Educationally active within the NHS Teach as IC

Course	Branch/specialty	Requirements
Intermediate Skills in Laparoscopic Surgery (Inter Lap)	Surgeon – any specialty that conducts minimally invasive surgery	<p>ST7 + or SAS/LED with commensurate experience</p> <p>Have expertise in the following procedures:</p> <ul style="list-style-type: none"> ▫ Nissen fundoplication ▫ Laparoscopic feeding gastrostomy ▫ Laparoscopic pyloroplasty ▫ Laparoscopic gastroenterostomy ▫ Laparoscopic inguinal hernia repair ▫ Cholecystectomy, choledochotomy and T tube drainage <p>Teach as IC</p>
Practice: MRCS OSCE Anatomy	Current or former MRCS OSCE Anatomy examiner	Observe Practice: MRCS OSCE Anatomy prior to teaching
Pre-hospital and Emergency Department Resuscitative Thoracotomy (PERT)	Surgeon – trauma, cardiothoracic Emergency medicine physician	<p>ST6 + or SAS/LED with commensurate experience</p> <p>Credible experience of performing resuscitative thoracotomy</p> <p>Teach as IC</p>
	OR	Be active DSTS faculty
Professional Behaviours in Aesthetic Surgery (PBAS)	Surgeon – plastics, aesthetics, cosmetics	<p>Consultant or senior SAS/locally employed doctor</p> <p>Certified under intercollegiate cosmetic scheme for at least one year</p> <p>Attend PBAS faculty training session</p>

Course	Branch/specialty	Requirements
Specialty Skills in Emergency Surgery and Trauma (SSET)	Surgeon – general, vascular, thoracic	ST6 + or SAS/LED with commensurate experience Credible experience of working in trauma Teach as IC Be active DSTS faculty
	OR	
Surgical Skills for Students and Health Professionals (SSSHP)	Surgeon – any specialty	ST3 + or SAS/LED with commensurate experience Teach as IC Be active BSS or CSES faculty
	OR	
	Core surgical trainee or LED with commensurate experience	Have passed BSS Teach as IC
	Surgical care practitioner	Have held an SCP role for at least two years Have passed BSS Teach as IC
Systematic Training in Acute illness Recognition and Treatment (START)	Surgeon – any specialty	CT2 + or SAS/LED with commensurate experience
	Anaesthetist	Teach as IC
	Intensive care specialist	OR
	Physician	Be active CCrISP faculty
	Surgical care team	Hold a role that meets the requirements stated on the application form
	Nurse	

Course	Branch/specialty	Requirements
Training the Trainers: Developing Teaching Skills (TTT)	Surgeon – any specialty	Consultant or senior SAS/LED An interest and involvement in training Teach as IC
	Educator	Graduate Experience of developing and using a range of teaching methods, particularly practical skills in facilitation Experience of working with people at all levels of seniority Teach as IC

Co-director and course director requirements

Course	Co-director requirements	Course director requirements
ATLS Instructor	Current or former ATLS Steering Group member or experienced ATLS Instructor course faculty and ATLS Provider course director	Current or former ATLS Steering Group member or experienced ATLS Instructor course faculty and ATLS Provider course director
ATLS Provider	Current ATLS Instructor status Have taught as faculty/instructor candidate eight times on ATLS Provider courses	Current ATLS Instructor status Have acted as ATLS co-director
ATLS Reverification	Current ATLS Instructor status Have acted as ATLS Provider course director	Current ATLS Instructor status Have acted as ATLS Provider course director
ATNC Instructor	Current or former ATNC Steering Group members	Current or former ATNC Steering Group members
ATNC Provider	Current ATNC Instructor status ATNC SG nomination	Current ATNC Instructor status ATNC SG nomination
ATNC Reverification	Current ATNC Instructor status ATNC SG nomination	Current ATNC Instructor status ATNC SG nomination
BSS	Consultant or senior SAS/locally employed doctor Have attended a teaching skills/pedagogy course Have taught as BSS faculty three times	Have acted as BSS co-director
CCrISP	Consultant or senior SAS/locally employed doctor Have taught as CCrISP faculty five times	Have acted as CCrISP co-director
CCrISP Instructor	By invitation only	By invitation only

Course	Co-director requirements	Course director requirements
Core Lap	Consultant or senior SAS/locally employed doctor Have attended a teaching skills/pedagogy course Have taught as faculty three times on Core Lap and/or Inter Lap	Have acted as Core Lap co-director <i>or</i> Inter Lap course director <i>or</i> Inter Lap co-director
CSES	Consultant or senior SAS/locally employed doctor Have attended a teaching skills/pedagogy course Have taught as CSES faculty three times	Have acted as CSES co-director
DCOTS	By invitation only	By invitation only
DSTS	By invitation only	By invitation only
ESS	n/a	Be active ESS faculty
Inter Lap	Consultant or senior SAS/locally employed doctor Have attended a teaching skills/pedagogy course Have taught as Inter Lap faculty three times	Have acted as Inter Lap co-director
PBAS	n/a	Be active PBAS faculty
PERT	Consultant or senior SAS/locally employed doctor Have attended a teaching skills/pedagogy course Have taught as PERT faculty three times	Have acted as PERT co-director
Practice: MRCS OSCE Anatomy	n/a	Be active MRCS OSCE Anatomy faculty
SSET	Consultant or senior SAS/locally employed doctor Have attended a teaching skills/pedagogy course Have taught as SSET faculty three times	Have acted as SSET co-director

Course	Co-director requirements	Course director requirements
SSSHP	Consultant or senior SAS/locally employed doctor Have attended a teaching skills/pedagogy course Have taught three times on BSS and/or SSSHP	Have acted as SSSHP co-director <i>or</i> BSS co-director <i>or</i> BSS course director
START	Consultant or senior SAS/locally employed doctor Have attended a teaching skills/pedagogy course Have taught as START faculty three times	Have acted as START co-director
TTT	n/a	Be active TTT faculty
